

People made in GDR

S1

Down-to-earth, grounded and pragmatic

We are straight into the face sometimes not diplomatic.

We don't give a shit about what you have or who you are.

We are done with (all of) it. Don't pretend! come as you are!

S2

With a healthy dose of mistrust towards unfamiliar things.

Sometimes dismissive, a bit brittle, we can fly with broken wings.

Massive upheavals we had to cope with, we stand strong

East German engineering nothing can go wrong.

We value honest work. We value honesty at all.

Authentic and reserved. Learned modesty behind the wall.

Refrain

Remember who we are - at home or way afar.

Remember who we are - we're people made in GDR.
